

Product info sheet: **glimtrex[®] UV-Protect**

Product description

glimtrex[®] UV- Protection is an additive for glimtrex[®] Hardwax-Oil which to achieve the protection of the wood against UV-rays and the accompanying colour changes.

Characteristics

- Only to be used in conjunction with glimtrex[®] Hardwax-Oil
- Suitable for all wood and cork surfaces
- Increases the color stability of your wood
- easy to apply

Application instructions

- Mix in the glimtrex[®] Hardwax-Oil with 5 % glimtrex[®] UV-Protection
- Make sure that the glimtrex[®] UV-Protection and the glimtrex[®] Hardwax-Oil are well mixed
- Evenly roll on the material
- Before applying the second layer it is imperative that an interim polish be carried out
- for the highest protection possible we recommend to use the glimtrex[®] UV-Protection for both layers

Technical information

Available in 0.125 litre tins.

Oil-saturated cotton cloths pose a risk of spontaneous combustion due to heat build-up; therefore it is advised to spread them out and allow them to air dry before disposal.

The shelf life is 12 months in the closed original tin. Make sure to stir the tin thoroughly before using. A skin may form on the surface of the product, please remove before stirring.

Please look at the current safety data sheets. You will find them at www.glimtrex.de/downloads.
